

Roll No. 211009223...

Y – 3957

**MCA (First Semester) EXAMINATION,
Dec.-2021**

Paper-MCA-101

**INTRODUCTION TO INFORMATION
TECHNOLOGY**

Time : Three Hours

Maximum Marks : 60

Minimum Pass Marks : 21

Note– Attempt *all* questions. Question No. 1 is compulsory.

1. Attempt any *five* questions (Not more than 50 words each)—

- (i) What are the key differences between data and information ? 2
- (ii) What are the examples of data and information ? 2
- (iii) Write the name of data processing type. 2
- (iv) What do you understand by System Software ? 2

P.T.O.

- (v) What do you understand by application Software ? 2
- (vi) Explain communication in Computer System. 2
- (vii) What are the advantages of network ? 2
- (viii) What is assembler ? 2
- (ix) Explain Compiler. 2
- (x) What do you understand by **Macros** ? 2

Unit-I

2. Explain various types of data Processing with their uses. 10

Or

- ✓ Describe any three input devices and any three output devices with their functioning.

Unit-II

3. What are the main functions of assembler ? Also explain forward referencing and backward referencing in assembly language. 10

Or

Differentiate between single pass and two pass assembler.

available

Unit-III

4. Explain the compilation of expressions and control structures through appropriate examples. 10

Or

- ✓ How many allocation is done by Compiler ? Discuss static and dynamic memory allocation.

Unit-IV

- ✓ 5. What is the function of Linker ? Discuss its advantages and disadvantages. 10

Or

What is an absolute loader ? Explain its role, advantages and disadvantages in brief.

Unit-V

6. What are indexed sequential files ? Explain its structure. Why overflow is required in indexed sequential files ? 10

Or

- ✓ What is direct or random file organization ?
• Give examples.
